

# University, care experience and support

**Aged 14+? Living in Wales?  
Have experience of being in  
care?**

Researchers at Cardiff University would like to learn about your experiences of interacting with universities and colleges.

What does education and university mean to you?

How can your experiences be improved to help you make the best decision for you?

How can adults such as teachers, social workers, and university staff help with this?

If you want to find out more about the study or ask questions you can contact Hannah Bayfield at [BayfieldH@cardiff.ac.uk](mailto:BayfieldH@cardiff.ac.uk), or if this is difficult ask a carer, personal advisor/social worker or teacher to contact her.
